

APHL GLOBAL HEALTH

Pathogen Genomic Surveillance Capacity Assessment

Short Form

Pre-visit scoping. It establishes the assay portfolio, the status of each sequencing platform, how laboratory functions are covered and what the laboratory wants from the engagement, so that the visit opens with the picture already drawn rather than spending its first morning drawing one.

COMPLETED BY
One senior respondent per laboratory

SCOPE
About 30 minutes, returned before travel

VERSION
v4.1 · build 2026-11-12a
